Interagency Group/Countermeasures (Technical)
Washington, D.C. 20505

DCI/ICS-87-0825

7 APR 1987

*(info 19-12)*MEMORANDUM FOR: ACTING CHAIRMAN, SENIOR INTERAGENCY GROUP- *EXTRA*
INTELLIGENCEFROM: Donald C. Latham
Chairman, Interagency Group/Countermeasures (Technical) *7 MAY*SUBJECT: Interagency Group/Countermeasures (Technical)
(IG/CM(T)) Responses to Presidentially- and
Congressionally-directed Countermeasures
Tasks

25X1

Attached are responses to countermeasures tasks relating to IG/CM(T) responsibilities contained in both the President's response to P.L. 99-169, A Report to the Congress on the Nation's Counterintelligence and Security Countermeasures Plans, Programs and Capabilities, dated September 1986, and the Senate Select Committee on Intelligence report, "Meeting the Espionage Challenge: A Review of United States Counterintelligence and Security Programs, October 1986.

25X1

The responses at pages 1-17 were prepared by the TCC and those at pages 18-28 by the TSCC.

25X1

Your attention is invited to the "Recommendation" at pages 6-7 concerning the STU-III program. This is the only recommendation set forth in the entire set of IG/CM(T) responses, but the need for a formal commitment to a government-wide core STU-III capability and the funds to finance this capability are considered of such importance as to warrant inclusion of this recommendation.

25X1

Once the responses of the IG/CM(T), IG/CM(P) and IG/CI have been consolidated, we would appreciate an opportunity to review the paper before it goes final in order to assess whether there are any topics in either the President's Report or the SSCI Report that directly relate to the Defense Department but which have not been reported on by any of the Interagency Groups.

25X1
